While ADOT and its construction contractors strive to inform the public about planned freeway restrictions, during any complex construction project, there is always a possibility that unscheduled closures or restrictions may occur. Please visit our [Web site](#) for the most current information about planned I-17 restrictions.

During I-17 construction, plan ahead for unexpected restrictions – and remember to slow down in the work zone. The speed limit on I-17 has been reduced to 45 mph from Happy Valley Road to Carefree Highway for the project duration. The speed limit on the frontage roads has been reduced to 25 mph. The reduced speed limits are intended to protect you and your passengers, other drivers and workers in the construction zone.

All I-17 improvement projects from Loop 101 to Carefree Highway are scheduled for completion in 2009. Once improvements are underway to Carefree Highway, construction will begin on freeway widening north to Anthem Way.
